A TERRIBLE PRICE
The attack on Al Smith's religion in 1928 is a classic example. But there are thousands of others. The schedule of congressional primaries in Virginia's second and third districts which ended Tuesday, all four candidates were subject to all manner of "mud-slinging" which not only damaged the candidates but they had stayed out of public life. Democracy and the representative government cannot survive unless our "best citizens" can be induced to accept public service. If officeholders are to be recruited from the ranks of the brazen and from those who have no self-respect, we shall soon be ripe for fascism as the only defense of our institutions.
